Airstop Window Tape

DESCRIPTION

Isocell Airstop Window Tape is a foldable adhesive tape with tear-resistant backing strips that can be pulled off individually (15mm/20mm/25mm) for an easy and effective seal of the airtight joint at window and corner connections. Working temperature: from -5°C. Available with additional acryl adhesive strips for adhesion on either side of frame! Joint connections to the higher standards of RAL and ÖNORM B5320 achievable.

BENEFITS/USAGE

- Easy application around corner/window junctions
- **NEW!** Airstop Corner tape with divided backing strip available with a 30mm/30mm split
- Butt joints of panels

PREPARATION

Any surface being adhered to should be properly prepared and must be free from dust and grease and substrates must be dry. The greater the pressure applied, the better the performance of the adhesive tape.

APPLICATION

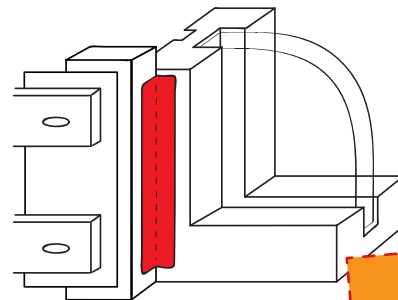

Airstop Window Tape is cut to the required length and folded to an L-shape. Start by fitting the narrow strip (15mm) of **Airstop Window Tape** to the corner/edge of the window frame/corner detail and then remove the remaining backing strip as it is being applied along the window frame. To complete the installation, remove the second outer backing strip (25mm) as you progress around the detail and firmly press into corner or reveal to complete the seal. The centre strip (20mm) remains in place for reinforcement of corner details.

NOTE

Airstop Window Tape functions as a seal and not as a mechanical fixing. The pure acrylate adhesive used does not contain resins or other additives that could cause the adhesive film to become brittle and therefore **this product is extremely resistant to ageing**. Please pay attention to our Guidelines for Installation!

PROPERTIES

Composition	Foldable system adhesive tape with pure acrylate adhesive and three individual pull-off liners
Roll Width	60mm
Roll Length	25m
Carton Contents	10 rolls
Working Temperature	From -5°C
Temperature Resistance	-40°C to +100°C
Resistance to Ageing	30 years
Storage	Cool and dry
Colour	White with red Airstop imprint

**EASY
INSTALLATION!**

**DIVIDED BACKING STRIP
FOR EASY APPLICATION**
